## **Summary**

I am a web developer specializing in frontend development with additional skills in web design. I have one year of work experience in web development, backed by a solid foundation built through two years of focused studies in computer programming and an additional four years dedicated to software development.

Beyond coding, I also wear the hat of a graphics designer. I engage in part-time computer services and networking. With strong organizational abilities and a keen eye for details, I am quick to adapt. I am trainable and eager to learn.

## **Experience**

## Web Developer

Witty Manager

Nov 2023 - Nov 2023 (1 month)

During my work trial at Posbang Corp, I actively contributed to the development and enhancement of the company's web applications.

- Perform direct revision, repair, or expansion of existing programs to increase operating efficiency or adapt to new requirements as necessary.
- Collaborate with business process owners (project managers, coordinators, team leaders) to assist in the design of solutions.
- Collaborated with the team to improve the functionality and styling of the Kanban and Mail sections.
- Resolved issues related to Kanban reply functionality, enabling users to utilize "reply," "reply all," and "forward" options.
- Investigated CORS issues, gaining insights into the reasons behind unsuccessful CORS attempts.
- Participated in meetings to discuss design system versions and implemented UI adjustments based on team discussions.
- Explored sorting options for Kanban by sender and contributed to discussions on design adjustments.
- Implemented style adjustments in collaboration with the team, focusing on mail layout, icons, and search bar changes.
- Actively engaged in discussions and made adjustments based on feedback from team meetings, contributing to the ongoing improvement of the web applications.

#### Frontend Developer

Kernel Esports

Mar 2023 - Aug 2023 (6 months)

I specialized in crafting immersive user interfaces for esports events, playing a pivotal role in the development of the Remote Overlay Environment (ROE) and enhancing its functionality and visual appeal. Proficient in technologies such as HTML, CSS, JavaScript, and the Laravel framework, I ensured the creation of seamless and responsive designs.

#### Creative Designer

#### Kernel Esports

Feb 2023 - Jun 2023 (5 months)

I crafted promotional materials and assets for esports events, including pub mats, posters, vectorized logos, and layouts, while collaborating with the design team. I was also assigned as the head of the creative design team, aiming to capture the excitement of the esports community.

#### **Graphic Designer**

#### InkCraft Studios

May 2019 - May 2022 (3 years 1 month)

I specialize in logo and design creation for the printing industry, utilizing tools like CorelDRAW, Adobe Illustrator, and Photoshop. Expert in color management.

#### Wordpress Developer

#### **BUHIG**

Jul 2019 - Dec 2019 (6 months)

Created and deployed a WordPress website for a client, showcasing knowledge in web development, hosting, and management.

### .NET Developer

ACLC College of Bukidnon

Oct 2018 - Mar 2019 (6 months)

Developed an inventory system for the school library using .NET technology.
